### Vinification method of Crémant d'Alsace Brut Prestige

The harvest for the Crémant d'Alsace starts usually beginning of september. Our winemaker controls the maturity in the selected parcels. Grapes are exclusively picked by hand. Bunches are put intact in the pneumatic press on low-pressure programs.

After a first fermentation in tanks, a second fermentation takes place in the bottle. This process is called the Traditional Method, used as well for the elaboration of Champagne. The bottles are ageing 15 to 18 months « sur lattes »
